

BYRD MAY GO FRIDAY

Plane Ready for Hop to Paris

One Report Says Lindbergh Will be at Field to Wish Flyer Luck

Return Trip Again Rumored; Weather Not Good Now; Food Already Packed

NEW YORK, June 14. (P)—Another trans-Atlantic week-end became a probability today when it developed that Commander Richard E. Byrd's take-off is a likelihood for Friday. Both the recent ocean hopes have been week-end flights, Lindbergh having started on a Friday and Chamberlain and Levine on a Saturday.

A man close to the Byrd flying camp at Roosevelt Field told the Associated Press this morning that Byrd intended to hop off tomorrow night or Thursday morning, with Lindbergh at the field to wish him luck, thus reversing their positions of four weeks earlier, and that the flight will be a nonstop one.

The Weather Bureau, however, said that no request had been made to have ocean weather charts compiled and that the weather, at least on this side of the Atlantic, was not favorable.

Commander Byrd himself said he had no intention of leaving before July 1, but that if his decision is yet been reached, he expects a return flight. He set Friday, he said, because he believed that the first day when atmospheric conditions could have improved enough to make the journey feasible.

It was learned at the hangar that the food for the trip, enough for thirty days in case of mishap, had been stowed away in the ship, and that the tank had been filled with gasoline. The heavy landing gear also has been attached instead of the light wheels which have done service during the test flying.

NEW ENTRANT FOR FLIGHT TO PARIS

LONG BRANCH (N. J.) June 14. (P)—Lieut. Mitchell G. McConnell, New York, who is visiting here today, said he will attempt an airplane flight to Paris and return. He then proposed to fly to Los Angeles in an effort to set a new transcontinental record.

McConnell said he was financing the flight himself, and gave no probable time for the attempt.

FILTERED SUN RAYS DECLARED CURATIVE

TORONTO (Cont.) June 14. (P)—Filtering of the curative rays of the sun from the irritant rays by glass has been accomplished successfully in experiments conducted under the direction of the Ontario Board of Health. An announcement before the Canadian Medical Association says the treatment, which rejects the long rays and accepts the short ones, was found especially beneficial in cases of rickets, tuberculosis, malnutrition and skin diseases.

NEGRO WOMAN WINS UNIVERSITY DEGREE

PHILADELPHIA, June 14. (P)—For the first time in this State a negro woman tomorrow will receive the degree of bachelor of laws at the commencement of the University of Pennsylvania. She is Sadie T. Mossell Alexander, who also was the first negro woman to receive the degree of doctor of philosophy in this State. She plans to practice law in the office of her husband, Raymond Page Alexander.

MOTHER TAKES CONVICT BACK

Fugitive Given to Warden After He Escaped From Utah Prison Camp

SALT LAKE CITY, June 14. (P)—Yesterday morning Marshal Bland, 30 years of age, serving an indeterminate term on a charge of forgery, escaped from State prison farm. This morning, twenty-one hours later, the prison bell rang and Warden Davis, responding, found his missing prisoner and his mother at the door.

"Here's my son who escaped yesterday," the woman said sadly. "I brought him back to take his medicine. We had a long talk and I do not think he will attempt to run away again."

LINDBERGH'S PRAISE SUNG BY OBREGON

Ex-President of Mexico, Guest in City Declines to Talk About Own Plans

Gen. Alvaro Obregon, former President of Mexico, is at present chiefly interested in the flight of Charles A. Lindbergh. He is not involved in politics, he declared yesterday at the Van Nuys Hotel, where he is staying these days. He is not worrying about the Presidential election next year and is not inclined to make any announcement as to whether or not he will be a candidate for return to power.

The construction of the ship has been delayed since Dr. Eckener awaited the perfection of a new duraluminum by the German chemical trust which now has been completed. It is asserted that the duraluminum will be able to resist the strongest air pressure, and even heavy storms. The same company is perfecting an unflammable gas for the airship, which Dr. Eckener believes will be ready in the spring of 1928.

LEVINE HAS SET-TO

Thanks to the energy and tact of the directors of the German Lufthansa, the Blanca plane Columbia, after its triumphant flight from Berlin to America, will still have time to reach through the intermediary of the German, Dr. Puppe. Mr. Levine never used the invention, but Dr. Puppe, who is now at the Hotel William Penn in Pittsburgh, sent in a bill for \$4,000 for his services. He has considered this unfair and sent \$500 to his lawyer to settle Dr. Puppe's claim. Hearing of the flight, Dr. Puppe deemed that his time for vengeance had come and, calling on his organization, telegram to Mr. Levine on his flight, assuring him of his friendship, but at the same time ordered his lawyers in Berlin to put a lien on the Columbia for the entire amount of \$4,000.

Mr. Levine two years ago, when visiting Germany, obtained an option to buy the Columbia, but he did not follow through.

Mr. Levine has been trying to get out of this situation ever since he left Germany.

We are all very much interested in the success of Lindbergh's flight and it is about all you have talked about in New York," said the former President.

"Lindbergh is the kind of fellow who gets an idea and does it without considering the consequences. That is the reason he succeeds. No one ever does anything that stands to logic. While he is thinking about it someone else does it or he loses his nerve or something interferes. He has an idea, a good idea, and he does it. That's what I mean that Lindbergh has brains."

Gen. Obregon said that business conditions are very satisfactory in Mexico at present and that prospects for the future look good this year in Sonora. He refused to discuss politics or to comment on the candidacy of Gen. Gómez.

Gen. Obregon is in Los Angeles to have his eyes treated and for the next few days will be confined to his hotel room as part of the examination specialists are making. Except for the trouble with his eyes the general is in good physical condition.

SEARCH RIGHT DENIED

CINCINNATI, June 14. (Exclusive)—Police have no right to stop a person on the street to search him for liquor unless he has violated some law, Judge Wooster ruled today in Municipal Court here in dismissing a negro charged with having a gallon of moonshine concealed on him.

CHAPLIN VISITS SING SING

OSSINING (N. Y.) June 14. (Exclusive)—Charles Chaplin and Alexander F. Moore of Pittsburgh, former American stars, were here yesterday. Chaplin was in Sing Sing prison today. They were taken on a tour of inspection.

AGAIN ON WAR PATH

Before they could arrive on the scene the bailiff was on the war path again but the measurments dictated by the court officer and their speediest cars and offered to cover Mr. Levine's debt with every cent they owned to protect the plane from public disgrace.

The Foreign Office and the bailiff went to Mr. Levine's uncle, Mr. Franklin, his business agent in Berlin, to come

and rescue the plane.

PAFFES RIGHT CLUB

America's air ambassador then decided to give a few hours to his business associates. What transpired among them other than the uniformed plane to transcontinental tour was not disclosed.

Then came one of the first unfortunate occurrences of his return to New York. He was scheduled to visit the New York Newsboys Club, accompanied with Miss Evangeline Clark, his mother. The trip was to be made by rail.

Mr. Levine was hauled from his rest at Baden-Baden by long-distance telephone and finally this morning the lawyers came to a compromise.

The cash was paid to Dr. Puppe.

Consequently, Dr. Puppe

was the first one to profit by the prowess of the American dyers and

the plane Columbia.

During the visit Mr. Levine and

Miss Evangeline are in the best of spirits at Baden-Baden. This morning, as a lark, they donned the top hats and coats of the old coachman at the railroad station and drove the guests to the Hotel Stephanshof, whose gulf from the thrilled public while the arriving guests were terrified and unable to understand why the usually bold residents of Baden-Baden were holding their sides with laughter. At last the secret was revealed that their coaches were the American heroes.

The Baden-Baden coaches disapproved the flyers' tactics and demanded that they sit only on account of the timeliness of the steeds that the guests arrived safely.

FILLS ALONE AGAIN

There he made a fifteen-minute flight in a Curtiss Oriole race belonging to Casey Jones, test pilot for the Curtiss company.

"True to tradition, Lindbergh flew alone."

The Spirit of St. Louis was calling, but the weather was highly unfavorable and America's hero came from Europe to take again the task of following out the dictates of New York's welcoming committee.

Lindbergh said the plane flew nicely and he liked it better than the Nielsport that he flew in Paris or the Woodcock that he took up in England. But the Nielsport and the Woodcock are army pursuit planes.

The flyer left the field to join the British Royal Flying Corps at the Curries Airplane Company, at a late luncheon. He remained at the Russell home on Long Island until 5 o'clock, when he motored back to Harry's Park Avenue residence.

There he is making his headquarters while in New York.

FLYING BEATS EATING

When Lindbergh returned to New York one of the first questions asked the flyer was why he had failed to show up at the newspaper club luncheon.

He had not been noticed in time,

he responded, "and anyhow, as much as I like the boys, I had rather fly than eat. And I had a chance to fly."

Please forgive me."

He was forced to admit,

he concluded, that the quantity of developing airports as quickly as possible in each town and city. As soon as they are placed we'll have a passenger service equal to our air mail service and better than that of any European country."

In regard to the report that the

Spirit of St. Louis had outlined a

flight plan, he said,

"The 'strangler' is being pressed by every

agency at the command of the au-

thorities. He is believed not only to

be the slayer of Mrs. Emily Patter-

nson, 46, year of this city, but also

to have been responsible for the

deaths of a number of women in the

United States."

The scene is centering particu-

larly about Headingley, Manitoba,

a short distance from Winnipeg.

Bloodhounds have been sent there

from Winnipeg.

GETS SUNBURNED

The ship has been in the air

sixty-four hours," Lindy said, "and

the life of a good plane is about

200 hours. Mine is 200 hours.

With proper care a motor like

the Wright whirler will last from

1000 to 1500 hours."

AIRSHIP HAS A NEW GOAL

Craft Built to Circle Globe

German Zeppelin Expected to be Able to Go Around in About Twelve Days

Levine Plane Barely Escapes Having Seals of Bailiff Put on Its Wings

COPYRIGHT, 1927, BY CHICAGO TRIBUNE

BERLIN, June 14. (Exclusive)

While preparing for the visit of the American dyers, Clarence D. Chamberlain and Charles A. Levine, to the Friedrichshafen wharf, Dr. Hugo Eckener, director of the German Zeppelin works, today announced that his new ship, the LZ-127, which is under construction now, will be able to circle the world in twelve and a half days, with three relay stations: in Russia near the Pacific, in Western United States and with headquarters probably at Lakehurst, N. J.

The construction of the ship has been delayed since Dr. Eckener awaited the perfection of a new duraluminum by the German chemical trust which now has been completed. It is asserted that the duraluminum will be able to resist the strongest air pressure, and even heavy storms. The same company is perfecting an unflammable gas for the airship, which Dr. Eckener believes will be ready in the spring of 1928.

former member of Congress from this State, the secretary to the President. A bright sun took some of the chill out of the wind and the crowd, rendering assault upon its liberty with a musket in its hands. Yet they are orderly, peaceable people, neither arrogant nor querulous, who are only those advances which come from the well-earned rewards of enterprise and industry.

COUNTRY ALWAYS RESPONDS

Such a people always responds when there is need for military service. At the time of the Mexican war Lee's county, yes, but a scattering of its men joined a company of volunteers which was organized by Joseph F. Smith. In the war between the North and South the county did not furnish a single soldier, but it supplied more than 1,000 men for the Union forces. Of that number seventy-eight died as a result of their service. Almost every able-bodied man in the country has done his duty in the defense of his flag. The city of Hammond furnished the entire company of Company A of the One Hundred and Sixty-first Volunteer Infantry, and other parts of the state did the same.

The descendants of your fathers have swum land into an industrial center within half a century was considered by the President as representative of the growth of the entire nation, and amid all her prosperity, he added, "America has not forgotten her ideals."

TEXT OF ADDRESS

The President's address in full follows:

Fellow citizens:

This section represents a phase of life which is typically American. A few short years ago it was an unimportant, isolated, semi-primitive place. Today it is a great industrial metropolis. The people of this region have been creating one of the most fascinating stories. The fame of it, reaching almost every quarter of the globe, has drawn hither the energetic pioneer spirits of many different races, all eager to contribute their share and to receive in return the abundant opportunities for personal enterprise which this occasion made became irresistible. Here are communities inspired with a strong civic spirit moving majestically forward, serving the welfare of their fellow-men. Here are life and light and liberty, here are life and light and liberty, organizing, thinking, building for eternity.

SECTION YOUNG IN YEARS

While the north township of Lake county, Indiana, may not pay tribute to antiquity, it has a freshness and a vigor that make it an ideal meeting-place. When the Puritan and pioneer laying the foundations of our republic, this region was almost unknown. A few venturesome explorers had over the years made up the limit of the wild life and cavalier were settling on the Atlantic the savage tribes of the mid-continent. For a long period it was claimed as a part of the French dominions. It was not until a colony of Swiss in 1795 brought to a climax the famous "Treaty" that it passed under English rule.

For a century and a quarter it remained a cluster of primitive hamlets, scattered sparsely, mostly unoccupied so that between 1855 and 1860 several thousand acres of land were taken at \$1.50 an acre, and suddenly wild, bare land is replaced by a dense town built up to a capacity as large as 10,000 residents and think along the banks of the Calumet River.

When a large plant was built in Chicago, the production of several of petroleum in 1880, not more than half a dozen small houses were located there. When George H. Hamm started a packing plant in the early 1890s, there were only 1,000 inhabitants. The town had a population of less than 1,000 people in East Chicago when it was incorporated in 1892.

CITY GROW QUICKLY

From these meager beginnings these three cities which, with the villages of Munster and Highland, now form the north township, have a population of more than 100,000. They have become a great manufacturing center of steel products, railroad equipment, electrical machinery, refined oil and chemicals. Their assessed valuation is nearing \$200,000,000. The value of improvements completed within the last year, including new and projected, amounts to more than \$50,000,000.

To the east is the city of Gary with its immense steel plants and a population thought to exceed 100,000 persons and an annual output of more than \$100,000,000. Such a rapid development, now rivaling many of our oldest cities, is difficult to comprehend. It is inconceivable that it could take place in any land but America.

Along with the growth of the material side of life has gone the growth of the intellectual side of community life. While factories have been building, schools have followed. It is reported that a scientific survey made of one of these cities to determine what improvements could be suggested to the public school system so admirable that there appeared to be nothing to criticize.

ITS LOCATION CENTRAL

Location has been of considerable importance in this development. This area lies at the southern extremity of Lake Michigan so that sea and ocean traffic is important. The port, while it is also close to the great coal fields of Indiana, Illinois and Ohio. Through this region run the lines of many great railroads, taking in practically the entire continental domain. It is near to the center of population which is now located in Indiana, and is peculiarly connected with the growth of the great Southwest.

But when all these advantages have been realized, we come to the inescapable conclusion that the real foundations on which these communities rest, the main reliance on which they depend, is the spirit of the people. To the underlying strain of native stock have been added the industry, the skill, the perseverance and the courage of many other lands, who have come to speak here. But considering them all, who shall say which are making the most valuable contribution to the progress which most truly represent the spirit of the age, which are the best Americans?

Patriotism is indigenous to this land. Not the visionary variety which

FAST AIR MAIL FOR COOLIDGE

Special Army Airplanes to Ready Dispatches to Summer Camp

WASHINGTON, June 14. (P.) To expedite government business while President Coolidge is vacationing in South Dakota, the Postoffice Department has arranged with the Army Air Corps to relay by plane to Rapid City the White House mail carried by the regular airmail service to North Platte.

WASHINGTON, June 14. (P.)

President Coolidge's SPECIAL TRAIN EN ROUTE TO SOUTH DAKOTA, June 14. (P.) Turning from the East toward the corn and wheat fields of the Middle West, President Coolidge journeys westward from Chicago to his summer residence in the Black Hills.

The President's pet, was kept well out of sight in constant keeping of an attendant.

The first day of the two-day journey was a banner day for the children, as both Mr. and Mrs. Coolidge spotted them out frequently and waved and smiled. One child in a car, a boy, ran out and alighted in his mother, while Mrs. Coolidge stopped at the President's coat to direct his attention and told him to throw the youngster a kiss. He did so almost shyly, but even more reluctantly was the wave that came back to him.

CHILDS WIN FAVOR

Again when the party was boarding the train at Hammond a young girl received Presidential preference. Lorreta Joblonska, who could not have been a day over 4 years of age, held out a huge bouquet toward Mrs. Coolidge and the First Lady accepted it, the child was lifted by the First Gentleman to his shoulder and had her picture taken.

The Presidential special stopped to do at Allard, Deacon, Geddes, O. and Cassell, Ind., before arriving at Chicago, where the party motored to Wicker Park. At each point a welcoming group had lined out, but although Mrs. Coolidge had been a bit ill, she had accepted the invitation to speak to the group which had come to see the First Gentleman.

As the long special train crept along, Mr. Coolidge and the entire White House retinue through the homelands of the farmers of the Middle West, the prospect of a summer not taxed by the business and social demands of Washington seemed a welcome respite.

The wholesome, strengthening influence which all of us have had upon American life is beyond estimation. It is all an important part of the purpose of our national capital.

ANGELS OUTHIT SEALS TO WIN

Fourteen of Sixteen Snouts
Bunched by Seraphs

May and Mails Are Clouted
Off Mound in Fourth

Ping Bodie, Tony Rego Slap
Out Circuit Clouts

BY BOB RAY
Three powerful batting rallies, during
which the Angels bunched fourteen of their sixteen hits, produced
enough runs to give Harry Krug's athletes
an 8-to-7 triumph over the
Seals in the se-
ries opener yester-
day afternoon at Wrightwood.

At that, though, the Angels needed all the marks they got in their efforts of pounding a trio of San Francisco hurlers in the first four innings, for Lefty

Wrightwood had already finished a fine 73. But after an unruly putt that hit the back of the head of the third baseman, George Green, in the ninth, the Angels carried on with the game.

"Buckshot" May started on the mound for the Seals, but had to be relieved after two runs were in, a man on second and but one out. Harry Seeger, in his turn, was unable to get the side out in a hurry, when Tony Rego, who had previously hit a home run with one on, lined to Ray Jacobs, who stepped on second base to complete a double.

Inside does that has a familiar sound. Tops with a 1927 trimming, but 1926 down. You hear 'em last year before Dempsey fought Tunney. What's it? It's Ballyhoo. It's the stuff that helps Tex Rickard get his \$1,000,000 gates open more.

Larney Lichtenstein caught me in an unguarded moment at the Manhattan when "Billy" Grimes, the heavyweight champion, was working out at a hotel of sparring partners and made me promise to write something about what Billy did to 'em, particularly to the Negro fighter, Ethelio named Jack Anderson.

Billy only weighs 158 pounds in his fighting clothes, so you have the picture of him pugilating with a giant who weighs 200 pounds shy of 200. Pugilism is the word, too, for the little fellow from the Antipodes brought 'em up from the floor, from any and all positions, and with an ease that was amazing. He actually rocked the big fellow with his potent wallop and had the giant rushing wildly back and forth around the ring like a wild bull. They're hard to catch, and the black heavy never nailed his agile foe. Pure love of flailing the big boys. Billy reminds me of Billy Gibbons of Columbia, who was better than to get the big eggs in the ring. The tougher they are the better Shae and Grimes appear to like 'em.

At great risk of being garroted by Mr. Robert Tyre Jones' numerous supporters, who have all anyone caught thinking is subject to dementia. The Giants will submit to the same principal as a factory, and each athlete is expected to do his part, as ordered, and never ask what for.

HOUSE POLICEMEN

Moreover, the Giants are subject to the same discipline as the inmates of a reformatory, being required to turn in by 11 o'clock at night and arise on signal in the morning, and there are usually one or more house policemen along in the guise of trainers, coach or friend of the management, to perform keyhole and transom duties in the enforcement of this regime. Mr. Conroy Dolan was the most serious man Mr. McGraw ever had to watch his players, but owing to an unfortunate oversight Mr. McGraw neglected to hire anyone to which Mr. Dolan, and the other men involved at the invitation of Judge Landis.

A ball player with the Giants may be a hero on the sport page and the toast of his own town, but he is just an open secret under a mass of dust and far from available foremen in the dugout.

DUKE OF BUCKINGHAM COPS TURF CLASSIC

ASCOT (Eng.), June 14. (P)—W. M. Goss, Duke of Buckingham, by Bucken, out of Silver Ball, won the Ascot Stakes Handicap for 3-year-olds and upward, opening feature of Ascot week, here today.

Lady Llanover's Genius II was second and Mrs. G. S. L. Whitelaw's Castledero was third in the field of eighteen. The stakes are of twenty sovereigns added, with a nomination of £1000.

The Duke of Buckingham won by three lengths, while a head separated the second and third horses.

BREAKFAST CLUB ENTERTAINS HERO

Frank Harvey, a recent victor in the Long Beach to Avalon rowing derby, is to be entertained this morning by the Breakfast Club. Harvey will tell the clubites how he won the lengthy grind with a pair of leather patches on his pants and a can of grec.

ALHAMBRA TO BATTLE FULLERTON

Rival Prep Nines Tangle for Southern California Diamond Laurels

Baseball teams representing the Alhambra and Fullerton high schools came to the Ollies home diamond Saturday afternoon in the final game for the Southern California prep school diamond championship. Both squads are undefeated in league and play-off games, and a royal battle is

Baseball Banker's Alhambra squad probably will rule favorites because of a more impressive record. The Moors won the championship of the Coast Prep League, probably the strongest circuit in the Southwest, and followed it up with three play-off victories. Fullerton won the Orange County League, and won two play-off titles.

All of Alhambra's three play-offs went to the Moors by way of a single run. Santa Monica was defeated 1 to 1, in ten innings; Redlands succumbed 1 to 0, and Santa Barbara proved last week's victim by 7 to 5. Fullerton won from Covina, 7 to 5, and from Pasadena, 6 to 2, in two play-off games.

Orville Mohler, shortstop, is the leading hitter of the Alhambra squad. He is a son of "Kid" Mohler of Coast League fame, and is the only distinction of being the only left-handed second baseman in captivity. Claude Maloney, second sacker, has been voted the most valuable player in the Southern California High School baseball, and will be the captain in Saturday's contest with Harry Maloney, captain-elect for next year, behind the plate.

From a reliable source I hear that Everett Strong, who is one of the top up-and-comers of our local baseball, has been given another shot at an old rival, First Collins, in the Tia Juana arena July 5. Bert once shaded Everett, but the latter has improved, and given the first a hard time, and he should give his Mexican foes plenty to worry about now. What Everett did to Mickey Rockton at Hollywood recently was wonderful. Rockton is no longer anything to write home about, nobody but a smart fighter like Strong could have handled him as he did.

And anyone caught thinking is subject to dementia. The Giants will submit to the same principal as a factory, and each athlete is expected to do his part, as ordered, and never ask what for.

HOUSE POLICEMEN

Moreover, the Giants are subject to the same discipline as the inmates of a reformatory, being required to turn in by 11 o'clock at night and arise on signal in the morning, and there are usually one or more house policemen along in the guise of trainers, coach or friend of the management, to perform keyhole and transom duties in the enforcement of this regime. Mr. Conroy Dolan was the most serious man Mr. McGraw ever had to watch his players, but owing to an unfortunate oversight Mr. McGraw neglected to hire anyone to which Mr. Dolan, and the other men involved at the invitation of Judge Landis.

A ball player with the Giants may be a hero on the sport page and the toast of his own town, but he is just an open secret under a mass of dust and far from available foremen in the dugout.

PHILBROOK BATTING FOR WILLIE HUNTER

SANTA MONICA, June 15. (Exclusive)—In the absence of "Wee" Willie Hunter, former holder of the British open championship, and present State open champion, now in the East to clean up at the national open meet at Connecticut, his assistant, "Hap" Guy Philbrook, will fill professional duties at the Brentwood Country Club, the rendezvous of bay district golfers.

Formerly caddymaster, Holbrook was appointed to the higher office of assistant professional by the go. Aside from assisting "Wee" Willie with his pupils, Holbrook has been of considerable aid to the Brentwood women's team, raising it from a lowly position in competition with other feminine squads to one of native eminence. Holbrook will hold down the fort for about two weeks.

AMADOR MEETS KING IN HARBOR BATTLE

Pedro Amador, stablemate of Santiago Zorrilla and holder of the South American junior lightweight title, will be given a real test tonight when he meets the defending champion against Ritchie King, the Blond Tiger of San Pedro. Sailor Ashmore, former Coast lightweight star, is out after his third successive victory since recent comeback when he faces Kid Mack of Long Beach in the six-round semifinal. Lee Myracle clashes with Tom Moore in a six-round, while the fours bring together Art Tovar vs. Emanuel Fujier and Art Porter vs. Leslie Ostrom.

PICK YALE TO WIN WATER POLO TITLE

NEW YORK, June 14. (P)—Yale will rule favorites to retain the intercollegiate polo championship when the annual tournament opens Thursday on the grounds of the Westchester Billiards Country Club at Rye, N. Y. Five teams are entered.

Yale is rated highly as one of the Blues' showing indoors and victories outdoors over Pennsylvania Military College and Princeton. Besides, teams of those institutions, West Point and Harvard fours will seek the title.

For the first time the tourney will be a round robin, with each team meeting each of the others and the winner the combination taking the most games. The final is set for the 28th inst.

DAVE SHADE SIGNS FOR PORTLAND BOUT

OAKLAND, June 14. (P)—Dave Shade, middleweight, will go to Portland, Or., after his match with Jack Dunn, here, tomorrow night. There he meets Fred George Dixon, and from Portland he goes to Los Angeles, where he will clash with Joe Anderson of Louisville July 6, when he then jumps to Kansas City to fight Warne Smith the second week in July.

Fight experts say Shade is in fine condition for the match here. He has been in active training for the past few weeks. He will conclude his heavy work today.

GERMAN HORSE COMING HERE

NEW YORK, June 14. (P)—Lau-Junge, the famous German stallion, owned by Harry von Luschütz, is to be shipped to the United States tomorrow for extensive competition in this country. Word to that effect was received by Racing Secretary Victor M. Schubmehl, the racing association in a telegram from the owner.

GRIMES BACK IN SHAPE FOR RAMIES BOUT AT HOLLYWOOD

Billy Grimes will be a much better fighter when he faces Pico Ramies at the Hollywood American Legion Stadium Friday night than when he fought Doc Snell. That statement comes from the lips of Larney Lichtenstein, one of the wise old heads of the fight racket, who is the American representative of Grimes.

"Billy is scoliminated by this time, Coming from Australia and having a tough fight before he was in California two weeks didn't give the boy a chance to show his mettle," said Larney. "I am sure that Grimes is to the point and will be a fine fighter."

URES SHOW THAT MILK INHERITS BEER DEMAND

of Carbonated Beverages also Helped by Prohibition; No Increase for Tea

(This is the tenth article on the results of prohibition in the series prepared by Prof. Herman Feldman of Dartmouth College, Christian Science Monitor and published in the Times.)

BY PROF. HERMAN FELDMAN

"Soft drinks" and milk become substitutes for beer? That is the opinion of the United States Department of Agriculture, which has made a study of the output of real beer in 1914. Hence if near beer, in more than a fraction of the cases, inherit the taste for a satisfying beverage, what did?

To obtain answers to this question, the quantity of milk consumed in this country during the past few years. As estimated by the United States Department of Agriculture, milk for beverages and household purposes produced in 1917 amounted to 40,000,000 pounds, while in 1924 it had risen to 82,720,000 pounds, or almost 40 per cent more, an increase far exceeding that in population. Proximity and increased consumption of the new type of milk partly explain this marked increase, but in the opinion of those in official positions do not account for all of it.

The consensus of the people best informed in this matter is admirably brought out in a nation-wide questionnaire survey, undertaken by the Illinois Department of Agriculture, the results of which were made public in April, 1926. Fifty-one leading dairy experts employed as heads of dairy departments of agricultural colleges, agricultural agencies, state departments of cooperative milk-distribution agencies and milk dealers answered the questionnaire, which was sent out by the director of the association's department of dairy marketing.

Last year Commissioner Stewart of the United States Bureau of Labor Statistics had a survey made of some of the large soft drink plants located at Chicago and Pittsburgh. His report indicates that a great deal of milk is drunk by the workers in steel works, machinery plants, foundries and elsewhere, and may be substituted to a considerable extent for beer.

ROOT BEER FAVORED

That this is the case was borne out strongly in the comments made by employers interviewed by the writer, and in the results of questionnaires sent to hundreds of the country's most important industrial concerns. One firm reported their observation that prohibition had had a marked or noticeably favorable effect in popularizing milk among their employees.

It has also been developed that root beer has been consumed in immensely larger quantities since prohibition.

While there seems to be no way of estimating the proportion of the orange crop used for beverage purposes from that used as food we have observed that since prohibition fresh fruit orange drinks have been very popular, and in New York alone hundred of orange-juice stands have sprung up.

The opinion of the trade is that this is not due to prohibition, but that it was much aided by the abolition of the excise because it was the last remaining tribute to the man who preferred beer.

The common impression that the grape-juice industry has prospered from prohibition does not seem to be born out either, nor has any hard data supplied by anyone in the trade. We are informed by the president of one of the largest grape-juice manufacturing companies that while the consumption has been increased from 1918 to 1926, the rate of growth of this firm's product increased more rapidly in the ten years ending in 1918 than it has in any period before or since.

The prosperity of this industry and the other soft drink manufacturers is reflected in considerable measure on the price of the product to the consumer. This in turn has depended on the price of grapes which has been abnormally high of late. The time of prohibition for reasons discussed in a later article. Of course, the industry has been growing, but the effect of prohibition does not seem very clear.

ADVERTISING FEATURES

Coca-cola and similar drinks sold at fountains have enjoyed considerable prosperity during these last few years, as public statements and financial reports amply show. A large advertising campaign, spreading widely, has made a decided stimulus to its sales, which show how difficult it is to dislodge the increase of consumption due to such factors as advertising and greater purchasing power from the effects of prohibition. Correspondence with representatives of the trade concerning this subject makes it clear that the market for ginger ale has widened enormously since prohibition. Among the last firms which co-operated in a well-known Boston concern, which submits the following statistics of sales of ginger ale:

	1918	1919	1920	1921	1922	1923	1924	1925
	\$22,000	\$22,000	\$22,000	\$27,000	\$27,000	\$28,000	\$34,000	\$42,000

The scaling of a good proportion of the trade may be illustrated by the comment of the president of the New Jersey Division of Carbonated Beverages, as reported in the New York Times of January 21, 1927:

"Soft-drink bottlers have found themselves compelled to offend neither the wet nor the dry, and let the fight go merrily on. In the first place no such liquor is consumed so much under prohibition that there is little demand for carbonated water for mixing highballs, etc., and in the second place many have turned solely to soft drinks under prohibition that it would be folly for the bottlers of carbonated beverages to do the same, as the wet or the dry and thereby incur the danger of losing the business from either side."

Those engaged in the coffee and tea business seem to have been upon prohibition with great apprehensions. A typical statement found in the tea and coffee trade journal in 1918 is the following:

"There will doubtless be coffee houses established in the own business sections where people cangregate during the business hours of the day. Some will doubtless take advantage and drink a cup whenever they feel a 'thirst' coming on them."

COFFEE AND TEA

The same apprehension was expressed concerning the consumption of tea. One firm of tea brokers took the stand that "with properly directed effort there is no reason why the consumption of tea should not be doubled."

The figures of coffee and tea consumption are helpful in this con-

Fast Getaway -

- that vivid mark of matchless Hudson power

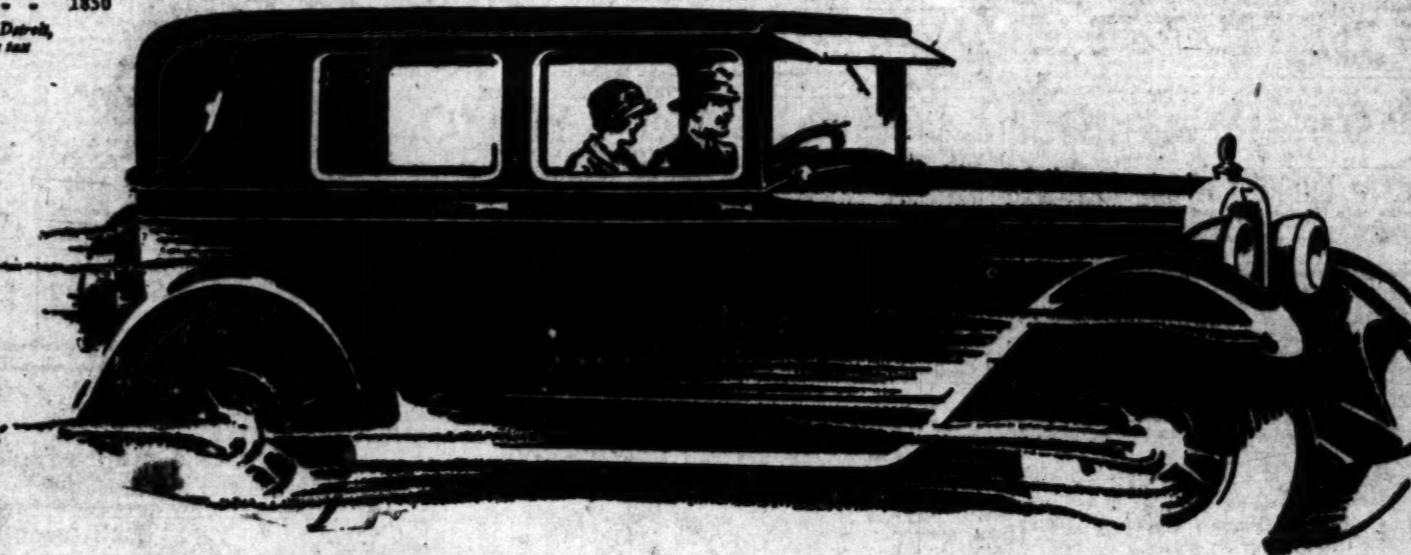

A thrill, never to be forgotten, and a zest that familiarity cannot dull, are in store for you when you take your first ride in the Hudson Super-Six.

The swift ease with which it is underway is but one expression of the virile, stirring power that marks its full performance range. And this smoothness and freedom from exertion is the exclusive characteristic of the Super-Six principle.

You travel faster in city traffic because of flashing getaway, rapid acceleration and instantaneous control that easy, accurate steering and four-wheel braking give.

And 'cross country, you have new limits of high speed, easily sustained and safely employed because of the positive road-hugging action provided in the low center of gravity and Hudson's patented and exclusive type of spring suspension.

With performance beyond any heretofore known, Hudson gives the real economy of reliability, long life and freedom from repair, as well as moderate operation cost.

WHOLE ELECTED TICKET OUSTED

Fifty-eight Officials in Kentucky Lose Jobs

Fraud and Plots Charged to Republicans

Court Blames "Inner Circle of Practical Men"

FRANKPORT (Ky.) June 14. (P)—An "inner circle of practical men" in the Republican party cost forty-nine city and nine Jefferson county elective officials and an undetermined number of appointees their jobs, declared the Court of Appeals in an opinion today in a contest brought by the state.

The court ruled that "no election" had been held in Louisville and Jefferson county in November, 1925. Fraud and conspiracy, the court held, made the proceedings unconstitutional.

The mandate of the court ousting the officials, will be issued the 24th inst., without prejudice to the filing of a petition for a rehearing within thirty days.

WILL NAME OTHERS

Successors to the ousted officials will be appointed by Gov. W. J. Powers. He ruled that the present established two years ago, when the Republican Councilmen and Aldermen were ousted by the Court of Appeals, he will appoint the Democratic candidates in the 1925 election.

These officials, headed by Joseph T. O'Neal, as Mayor, will serve until their successors are elected in a special election in November.

Among the city officials affected are Mayor Arthur A. Will, Police Judge E. M. Daily; Miss Margaret Boyd, auditor, and Mrs. E. E. Bristow, treasurer. The county officials affected were Judge Henry J. Fox, J. Matt Gilligan, attorney, and Aubrey Cossar, sheriff.

In all fifty-eight city and county

SITTER ON POLE TOP ALL WET

But Rain Falls to Wash "Shipwreck" Kelly from Perilous Perch

NEWARK (N. J.) June 14. (Exclusive)—The rain poured down on "Shipwreck" Kelly, perched atop the flagpole this afternoon, but Alvin was triumphant. He was all wet, literally, but at midday he had broken his own world's flagpole fasting record by remaining aloft seven days and two hours. He is still without any food or drink, except coffee, sitting on the twelve-inch top of the pole, and will try to remain there for another week, he announced.

Kelly says he is keeping his strange vigil to demonstrate modern people eat too much.

OFFICERS FIND BEATEN COUPLE

Texas Authorities Pushing Flogging Inquiry

Reward of \$1250 Offered in Quest for Guilty

One Man Already Arrested on Assault Charge

MARSHALL (Tex.) June 14. (P)—Weir Straps and his wife, who were flogged last night, and their three children, were found today by State rangers on a farm near Longview. They had been missing since last Saturday. The Marshall Chamber of Commerce offered a reward of \$1250 for the arrest and conviction of the masked men who whipped Straps and Mrs. Straps and J. H. Richardson and Mrs. Miller, sister of Straps, also was a victim of the gang.

They told officers that five masked men entered the Richardson home Wednesday night and beat the couple and their two sons, both 15 years of age, were covered with pistol wounds. Richardson said the men used a four-ply rope with knots in it.

After taking Richardson's shotgun and pistol, the gang went to the home of Straps and knocked him down with a pistol. Mrs. Straps, daughter of Mrs. Richardson, and Mrs. Miller were beaten severely.

More Liberal British Film Bill Promised

LONDON, June 14. (AP)—Sir Philip Cunliffe-Lister, president of the Board of Trade told the House of Commons Standing Committee on the film bill today that the government would move amendments liberalizing the measure.

Following consultations with film societies, exhibitors and producers, he said, he was willing to fix the quota of British films which must be exhibited at 20 per cent instead of 25 per cent and also to limit the operation period of the quota system to twelve years.

ANGELENO ELECTED BY STATE VETERINARIES

SACRAMENTO, June 14. (AP)—Dr. J. P. Iverson, chief of the Bureau of Animal Industry of the State Department of Agriculture, has been elected president of the California State Veterinary Association at the annual meeting of that body here. He succeeds L. G. Henrich of Coopers. Other officers elected are Dr. E. H. Berger of Davis, vice-president; Dr. W. L. Curtis, Los Angeles, secretary, and Dr. D. F. Fox, Sacramento, treasurer.

Painless Parker and His Prices

By Painless Parker

I BELIEVE every man should make a decent profit on whatever he does. I get a decent profit in my dental work, but still my prices were kept down during the war and are still down today. The E. R. Parker System did it. No man without a reliable system can get much of anywhere.

Dental prices outside of mine are high because the old way of practicing dentistry is costly. If a dentist has only a patient or two a day, he has to charge a big price. My associates and I treat a hundred thousand people a year. Even if we made a clear profit of a dollar apiece, we would be doing pretty well. But how many dentists are there who are satisfied with a dollar profit on each patient?

When you think of TEETH think of PARKER

ANGLO-EGYPTIAN CRISIS AVERTED

LONDON, June 14. (AP)—The threatened Anglo-Egyptian crisis is believed to have been averted. A note from the Egyptian Premier received by Lord Lloyd, British Ambassador to Egypt, is understood to offer the basis for negotiations regarding the Egyptian army problems.

Under the Constitution of April 18, 1923, declaring Egypt sovereign, the Egyptian defense was reserved, remaining under British control. The Sirdar, or commander-in-chief, and a few of the other higher posts are held by British officers. An amendment has been used to allow in Egypt to remove these men in favor of Egyptians.

ATTORNEY DIES IN WRECK

BAY (Ariz.) June 14. (AP)—Charles Steadley, 45 years of age, Pinal county attorney and former representative in the State Legislature, was killed in a car accident today. The wreck of his automobile near here. His roadster backed off the road and plunged 300 feet down an embankment.

DAY SUED FOR HEART BALM

Acid-Bath Victim Also Charged With Assault in Two Complaints for \$100,000 Each

CHICAGO, June 14. (Exclusive)—Darby Day, Jr., millionaire insurance broker's son whose former wife is serving a penitentiary sentence in California for disfiguring him with acid, today was named defendant in two \$100,000 suits filed in the Circuit Court by Miss Lucy Bleeding, an artist's model of 1430 North Dearborn street, who was the former sweetheart of Joseph (Yellow Kid) Well. According to her attorney, Benjamin Khrich, the suits will charge breach of promise to marry and assault.

Miss Bleeding, who is also known as Leontine Rose Bleeding, said that on March 29 she returned to her apartment and found the junior Mr. Day in his room. She quoted him as saying that he was looking for his letters to her.

"I remonstrated, and he beat me," said the girl, who is 22 years of age, auburn-haired and pretty. "He was very angry. He took his coat off and left with his letters, pictures and telegram."

Darby Day, Sr., described the suits as a "shake-down."

DANGERS SEEN IN POPULATION

TORONTO (Ont.), June 14. (AP)—Sir William Mulock, Chief Justice of Ontario and chancellor of Toronto University, believes some of the great population of the United States is a source of weakness instead of strength.

Addressing the delegates to the Canadian Medical Association at a banquet over which he presided last night, he declared he did not share the longing of some people for a smaller population in Canada, and added:

"I do not think that our friends to the south have been vastly enriched by their increased population, and that a portion of their population might not be called a source of weakness."

An empty house is better than a bad tenant, he believes, and Canada should aim to make its land not to be devoted to rest and recreational uses of the officers and employees of the United Verde Copper Company in Jerome and Clarkdale.

Women between the ages of 20 and 30 years in England and Wales now number 5,200,000.

Herrick Sails Next Week for United States

WASHINGTON, June 14. (AP)—Ambassador Herrick at Paris will sail for the United States on the 22nd inst. for his annual vacation, which is expected to keep him from his post until early in September.

His return was said at the State Department today to have no connection with proposals for a treaty between the United States and France to outlaw war, which both governments have expressed a willingness to discuss.

While Secretary Kellogg has not gone beyond voicing the American government's desire to have a permanent peace treaty, it was said at the State Department today that the next development is expected to come from Paris. It is assumed that the French government will suggest the time, place and manner for opening discussions of the pact.

ARREST MADE IN BRIDGE SWINDLE

SAN FRANCISCO, June 14. (AP)—Ormand Ernest Kelly, formerly of Milwaukee, was arrested here today on a Federal warrant charging him with having swindled several Portland women out of money on the pretense that he was an engineer planning to construct a bridge over San Francisco Bay. He was said to answer on a \$5000 bond by United States Commissioner Hayden.

GIRL PAROLED FROM SCHOOL ENDS LIFE

OSWEGO (N. Y.) June 14. (AP)—Miss Anna May Hall, 17 years of age, of Phoenix, N. Y., committed suicide today with a shotgun after a sum total of 18 months in the Hudson Training School, from which she was paroled April 10 for six months. The girl was committed to the school three weeks ago on a charge of perfusion after making false charges against her father.

Of the famed strain of Arabian horses it was written: "he will run all day—all day long his hardest, and reach his swiftest as the sun goes down."

In the sustained stamina, smoothness and durability of Essex Super-Six you see but one of many advantages for which the Super-Six principle accounts.

Here you have 50 miles an hour all day long—far greater speed if you want it—flying smoothness in action—dynamic appeals that win you in a ride.

Yet the Essex Super-Six provides scores of less dramatic qualities that are just as important in everyday service. Flashing pick-up, quick, easy steering, riding ease like the finest of big cars, and positive brake control that matches bodily comfort with mental ease.

All day through city traffic or speeding 'cross country, this restful car sets you down fresh at the day's end and eager for the road again.

This amazing Super-Six performance and quality are economical to buy and engineered to lowest operation and maintenance cost.

PASTOR BACKS UNWED UNIONS

Theories Shock Delegates at Episcopal Meet

Plan Offered as Counter to Promiscuity

Moral Code to Meet Needs of Youth Proposed

SAN FRANCISCO, June 14. (Exclusive)—The church should sanction unmarried unions if to do so will improve social conditions.

A young minister from a midwestern college here threw that thunderbolt of radical thought into a gathering of bishops and other clergy tonight at the Episcopal Church Congress at the Fairmont Hotel.

He was Rev. Henry Lewis, rector of St. Andrews Church, Ann Arbor, Mich., seat of the University of Michigan.

"To sanctify unmarried unions," he told his grave and startled hearers, "would do away, as some urge it would, with promiscuity and divorce standards, and better protect the children of legal marriage, then to keep on fussing with rules about divorce and the idea that all marriages are made in heaven is utterly silly."

Lewis declared the church might as well realize whatever it "may think of such conduct," that young men and women who are indulging in "sex experiments" and that the church's message to them must be framed on the basis of that fact.

"So many young people," he said, "what used to be considered lapses from moral code are now considered to be acts which are as natural as eating and drinking."

MORALS IN SCIENCE

Indeed, youth often decides on the basis of expediency or worthlessness whether sex relations should be indulged in, notwithstanding any after-effects because they believe there will be none. They see no harm in it—science will protect them—and science generally does.

The introduction of science is the convincing fact of time and in moral science has created an entirely new moral situation. You have done away with that old, but very effective, weapon which deterred many a person from committing sins accepted moral codes fear of consequences. When you introduced contraception you changed your moral situation.

"Even with those who do not go for the idea, many are to the point that such things as profligacy should be saved at least until the time of engagement, if not until marriage, the church comes under pressure."

"One of them," he said, "is sterilization of the mentally defective."

"Another is the intelligent use of birth control, at least in families where the economic situation is poor."

The speaker took the church to task for failing to impose the rules and standards of the past upon the present.

"We cannot," he said, "presuppose a fixed and inviolable moral code by which the men of all ages and all degrees of civilization are to be ruled. We must be practical."

Neither can we have that comforting assurance that we have attained to an absolute knowledge of right and wrong which enables us to pass judgment on the past and the present or the next secure that we make no mistake when we measure them by our own moral yardstick.

STERILIZATION URGED

Admitting that "all of us are probably not willing to 'concede' the sanctification of unmarried unions, Lewis asserted "but there are some scientific discoveries which the church should come under pressure."

"One of them," he said, "is sterilization of the mentally defective."

"Another is the intelligent use of birth control, at least in families where the economic situation is poor."

The speaker took the church to task for failing to impose the rules and standards of the past upon the present.

"We cannot," he said, "presuppose a fixed and inviolable moral code by which the men of all ages and all degrees of civilization are to be ruled. We must be practical."

Neither can we have that comforting assurance that we have attained to an absolute knowledge of right and wrong which enables us to pass judgment on the past and the present or the next secure that we make no mistake when we measure them by our own moral yardstick.

EXPEDIENCY RULES

"We know perfectly well that there is no such thing as an absolute moral code. Standards are always modified by the needs of the moment. We are regarded as the most beneficial to the individual or the spiritual organization."

"You can no more try this age by the standard of the Victorian era than you can by Christian standards by the lives of the Old Testament."

The canons of the Episcopal Church, next to those of the Roman Catholic, are the most strict in the matter of indulgence and discipline.

Twelve bishops, some of them from distant parts of the country and a large number of the clergy and laity attended the opening session of the congress. It is the fifty-third annual convention of the church in the United States.

Rev. Robert B. Gooden, D.D., head master of Harvard School, Los Angeles, was the other speaker of tonight. He too, talked on the topic: "Standards In An Age of Change."

The congress will continue until Friday afternoon.

DE VALERA HAILS VICTORY

Reduction of Government Majority in Election Seen by Leader as Defeat Equivalent

DUBLIN (Ireland) June 14. (Exclusive)—With the National University and Dublin University to be from the final results of the general election as announced as follows: Government party, 46; Fianna Fail (De Valera's party), 44; Labor, 12; Independents, 12; Farmers, 11; National League, 6; Sinn Fein, 5; Clann Eireann, 2.

This gives a total of 187, with the six university seats not declared.

Two seats for the National University probably will fall to the government nominees, Patrick McHugh and John MacNeill. The third seat already has been allotted to Michael Hayes, speaker of the Dail, who is automatically returned in consequence of amendment of the constitution before dissolution.

INDEPENDENTS WIN

For Dublin University it is expected that the three Independents, Prof. William E. Tharist, Prof. E. H. Alton and Sir James Craig, will be returned. The Dail at present has 153 seats.

Vice-President Kevin O'Higgins said tonight that for the second time in thirty years the electorate by a two-to-one majority had declared for the maintenance of the treaty and the constitution.

It was unsatisfactory, however, he went on, that the government party had been returned with a reduction of nine or ten seats and that the anti-treaty parties, which held forty-six seats at dissolution, now were like-

CITES IDEAL INSTITUTION

Marvin Wanted to Be Head of Orphanage or Penitentiary

Dr. Floyd Heath Marvin, former head of the University of Arizona and just elected president of George Washington University, must have changed his mind radically on the subject of desirable pedagogical jobs. Otherwise he would not have accepted his new place.

When Dr. Marvin finally re-

signed as president of Arizona after a long period of squabbling in which everybody took a hand, including former students, present students and members of their families, the disgruntled educator resigned:

"Next time I take the presi-

dency of an institution it will be either an orphanage or a penitentiary. The orphanage hasn't any parents and the penitentiary hasn't any alumni."

SUIT MAKES CHARGES OF PRICE FIXING

Agreements Declared to Involve Cracker, Bakers in All Coastal States

SAN FRANCISCO, June 14. (AP)—Charges of enforced price-fixing among cracker manufacturers doing business in California, Oregon, Washington, Nevada and Arizona were made in a suit for \$70,000 filed by Jack M. Abramson, attorney for the American and Standard Biscuit companies. Abramson is vice-president of the California Cracker Company and owns 37½ per cent of the stock in it.

The suit against the biscuit com-

panies, which own the majority of the stock in the California company, was filed under the terms of an antitrust contract entered into March 1926 between the two companies purchased. This contract was said to have provided that when any one of the three stockholders had been injured by an overt act on the part of either all investments should be returned.

Abramson asserted that restrictions placed on the California com-

panies by the majority stockholders

reduced the amount of drinking

among the students.

POCATELLO
GAS ADDED
BY FOSHAY

Utility in Idaho Latest

Link of Chain Owned by
Holding Company

Properties of Pocatello Gas and
Power Company, Pocatello, Idaho, are
the latest utility to be con-
tracted for by W. H. Foshay Company
of Minneapolis, with branch offices
in this and other cities.

Pocatello has the distributing poten-
tialities of the Oregon Short Line in direct
connection with Utah, Nevada, Colorado,
Oregon, Washington, Montana
and Wyoming. It is the gateway to
the Yellowstone Park and adjacent
tourist areas.

Public Utilities Committee, a cor-
poration recently organized by W. H.
Foshay Company, will take over
through a subsidiary Idaho company
the Pocatello properties, which will
then come under the holding com-
pany's management.

METROPOLITAN
Reports Local
Housing Loans

NEW YORK, June 14. (Exclusive)

Lots totaling \$155,000, sufficient to
provide housing for fifty-four families in Los Angeles, in
suburbs and in San Diego, were au-
thorized at a meeting of the
Metropolitan Life Insurance Com-
pany real estate committee. The
loans were placed through the Mort-
gage Guarantees Company of Los
Angeles.

Lots on bond and mortgage au-
thorized at the same meeting in the
country at large amounted to \$7,500.
Of this amount \$6,300,000 were city
loans and \$682,400 farm loans.
Total amount authorized, the pro-
portion of housing needed, was for
975 families. The principal housing
loans were in Pennsylvania, \$200,000;
West Virginia, \$118,500; Tennessee,
\$100,000; Missouri, \$64,000, and Cali-
fornia, \$54,000. Seven loans on busi-
ness buildings amounted to \$4,600.
000.

Penney Stores
Report Heavy
Gain in Sales

Sales of the J. C. Penney Company,
operating a chain store system, to-
taled \$48,000,000 for the first five
months of this year, compared with
\$38,000,000 in the comparative period
of last year, the company announced
recently in connection with the de-
claration of the annual divi-
dend of 50 on the preferred stock.
The sales in the first five months of this year
was \$6,000 per cent.

The Penney system now has a
total of 860 stores in its chain. On
the 1st of this month the company took
over the fifty-four stores of the
Seven Hills, Pa., near Tujague, follow-
ing their regular monthly
meeting. Mr. Fitzgerald is one of
the Seaboard National directors.

SEABOARD DIRECTOR
HOST TO OFFICERS

Officers and directors of the Se-
aboard National Bank last night were
given a reception by J. T. Fitzgerald,
the Fitzgerald Music Company,
which has conducted the
Seaboard National system of
the Central Northwest. On
July 1 the company will add forty-
five more stores, which will bring
the total up to 860 stores.

NEW FINANCING OUT TODAY

Issue of \$12,000,000 Ambassador Hotels Liens and

\$1,250,000 for McCarty Corporation Announced

New bond issues announced for sale in the Los Angeles investment mar-
ket today total \$12,250,000, consisting of \$12,000,000 for the Eastern Ambas-
sador Hotels and \$1,250,000 for the Walter G. McCarty Corporation.

The Eastern Ambassador bonds will be offered by S. W. Strous & Co., an affiliate organization of the Ambas-
sador Hotel Corporation, which owns two of the largest hotel prop-
erties in the United States, the Ambas-
sador in New York and the Ambas-
sador in Atlantic City. These ho-
tels have been open for less than five years and have shown steady
increases in patronage and profits
since they were opened, according to
the Strous announcement.

EARNINGS REPORTED

Earnings for 1926, as certified by

accountants, were \$1,059,477.24

available for dividends and Federal income tax, which is 24%

less than the amount of interest charges on the bond issue.

The security for the issue has been appraised by a well-known firm

of appraisers in the amount of

\$1,000,000.

The properties on which the issue is

based have been appraised as having

a total value of mortgaged prop-
erty of approximately twice the amount of the bond issue.

Application has been made to

the Superintendent of Banks to

have the bonds certified as legal for

savings banks.

PROPERTY VALUED

As of March 12, last, the corpora-

tion's statement showed assets con-

sisting of land, buildings and securi-

ties valued in excess of \$6,000,000,

with no outstanding debt except cur-

rents. The property owned includes the Walter G. McCarty Building, a one-story structure situated on Wilshire Boulevard, and steel

frame dry-goods store and hotel build-

ings, located at a cost of

approximately \$1,700,000.

The properties on which the issue is

based have been appraised as having

a total value of mortgaged prop-
erty of approximately twice the amount of the bond issue.

Application has been made to

the Superintendent of Banks to

have the bonds certified as legal for

savings banks.

TWO IN HALF-BILLION CLASS

Standard Oil and Bancitaly Lead Coast Companies in Value of Capitalization; Espee Close

BY EARL R. CROWE

Measuring size by the market value of outstanding shares, the Pacific Coast has two giant corporations that will rank favorably in any group of companies in the half-billion to billion-dollar category. One is an oil, the Standard Oil Company of California, and the other is the Bancitaly Corporation, an investment trust specializing in bank stocks.

Both of these companies are comparatively new arrivals in the \$500,000,000 list, the Standard Oil Company having been elevated a couple of years ago by reason of the consolidation with the Pacific Oil Company, while the Bancitaly Corporation has just taken steps to pass through the portal of this select group of mammoth corporate enterprises.

STEADY PROGRESS

The rise of the Standard Oil Company in capitalization, coinciding with a market value of approximately \$600,000,000 has been steady, but not so rapid as the Bancitaly Corporation. Standard Oil, however, only had \$260,000,000 of \$100 par value stock outstanding as recently as 1918, and today, fifteen years later, has \$124,494 of \$25 par value stock in the hands of the public. The capitalization had a market value in 1918 at the high for the year of \$66,780,000.

The Bancitaly Corporation, now rated among the top investments in the world, has grown at an amazing pace since organization in 1919. Originally incorporated with a capital of \$100,000, or 100,000 shares of \$100 par value, the corporation has since increased rapidly, sometimes twice a year, until the corporation is prepared to appear in a new capital class dressed value of \$100,000,000 par value. The stockholders recently sold \$905,322.50, compared with \$857,123.25, an increase of \$58,200.

Progress on the second unit of the Western Pacific Building has been satisfactory, Mr. Ingold said. It is expected that the building will be ready for occupancy prior to January 1 next.

STANLEY SCHEDULED UP

Review Says Sales Satisfactory on Western Slope

Business in the electrical industry on the Pacific Coast for the past week has been very satisfactory, reported W. H. Foshay, president of the Pacific Electric System of California, which consists of 10,000 miles of line and 1,000 generating stations.

The bankers report, has no record of any default on external or internal, and there is no record, also, of default by the corporation, which has been in existence for over a year. The corporation has been successful in its efforts to expand rapidly, sometimes twice a year, until the corporation is prepared to appear in a new capital class dressed value of \$100,000,000 par value.

The State, the bankers report, has no record of any default on external or internal, and there is no record, also, of default by the corporation, which has been in existence for over a year. The corporation has been successful in its efforts to expand rapidly, sometimes twice a year, until the corporation is prepared to appear in a new capital class dressed value of \$100,000,000 par value.

VISIT THE NEW ROOSEVELT BUILDING TODAY

The formal opening today of the greater ROOSEVELT
BUILDING marks another milestone in the civic program
of Los Angeles. We wish to extend our heartiest
congratulations to the SUN REALTY CO., owners and
builders, for their great achievement.

The construction of this worthy addition to a greater Los
Angeles was made possible in part through the issuance
of First Mortgage Leasehold 6 1/4% Sinking Fund Gold
Bonds, underwritten by ourselves and associates early in
1926. These bonds offer a high-grade first mortgage in-
vestment, secured by less than a 54% lien on the building.

Price 100 and Interest, to yield 6 1/4%.

SHARP REACTION IN STOCK PRICES

(Continued from Eleventh Page)

The sharpest reactions this year and "bear" operators, who have taken some severe losses in recent months, endeavored to make the most of it by hammering supposedly vulnerable specialties. One of the sellers' arguments was that the Senate Commerce Committee's announcement of a tentative valuation of \$1,000,000,000 on the owned and used properties of the New York Central Railroad, which already had given notice of its intention to protest the figures, which are \$177,000,000 below those of the road's experts.

FAVORITES CRACK

High-priced industrials and rails were the hardest hit. Commercial Solvents & Co. broke 13 points to 231. Illinois Zinc 15% to 215½. General Motors 8 1/2 to 194. Delaware and Hudson 10 3/4 to 211 1/4, but all made slight recovery from the low level. American Can Company, due to show net decline of 5 points or more were American Smelting, American Linseed preferred, Case Threading, Chicago Pneumatic Tool, Columbia, Southern Dye, International Harvester, Louisville and Nashville, Pittsburgh Coal, Pittsburgh and West Virginia, and South Park Steel.

A sprinkling of issues showed independent strength. Nickel Plate common, selling "ex" the Chesapeake and Ohio Corporation stock dividend, was run up from 10 to 121 and then settled at 118. Pennsylvania and Smelting jumped 7½ points to 160, a new peak, on a few sales. Bullish activities also were quite prominent, notably Pan-American Petroleum Company, Pan American Petroleum, Pack & Tifford, and Radio Corporation, all of which showed moderate gains on the day. American Can Company is a new peak but can't poll its gain.

Commodity markets displayed a fairly firm undercurrent. Wheat prices held steady, with the July option advancing 1 1/2 to 84 1/2. Cotton, which was heavy in yesterday's abbreviated session, closed 10 to 20 points higher. Coffee futures rallied 25 to 30 points and raw sugar was unchanged.

Foreign exchanges moved within rather narrow and irregular limits: demand sterling was quoted around 86.80 3/4-4 and French francs around 5.51 1/2-3 cents.

CLEARINGS, MONEY

Clearings yesterday were \$20,720,000,771, an increase of \$2,000,000 over corresponding day last year.

Wheat Futures Down at Close, Corn Shade Up

CHICAGO, June 14.—(Eduard)—The wheat market showed an unusual quiet today, and while there was some fair play at one point, it was concentrated on all the futures. Better weather conditions in the Northwest and Southwest were factors. The close was at a net loss of 1¢, with July 1.45¢/1.455¢ and September 1.455¢/1.45. The wheat market was quiet, with little action on the buying side of corn, due to the low temperatures over the main belt and no gains were seen. Net with July 97¢/97.5¢ and September 1.03¢/1.035¢. Oats gained 1¢/1.05¢ with July 47¢ and September 47.5¢, while rye was 1¢/1.04¢.

Uncertainty as to the outcome of the new winter wheat crop in the Northwest with a large outside interest, was responsible for erratic fluctuations, the range for the day being 9¢/9.5¢. Local wheat was also quiet, with no gains or taking place reported on all the futures.

The weather forecast for the Southwest was partly cloudy, with higher temperatures, and it is expected that harvesting will be in full swing by the end of the month. This will mean the day weather will be beneficial, owing to excessive rains of late. New wheat has started to move in the Northwest and Kansas City received its first car of the season. Report demand was short with sales of 200,000 bushels to 200,000 bushels in all.

Wheat arrived heavy a good part of the day and closed 9¢/10¢ lower.

Low temperatures prevailed over the main belt, with grain bearing the heat easily and a strong combination-horned demand, prices averaged higher. Production was in evidence on all the hard crops. The forecast indicated fair and warm weather for the northern section of the country.

A good share of buying was in evidence in July, largely in the September, which sold off 1¢/1.05¢ of the July, and gained 1¢ on that delivery for the day. Crop reports were largely favorable.

Starting early, the market was active on other grain, with a slight drop in the morning. July 100,000 bushels a good part of the day. Reports of 70,000 bushels sold to Harvey.

Two purchases were made and more likely to take place in the morning hours, and closed at the intermediate level. The market was quiet in the afternoon, with sales of 100,000 bushels to 100,000 bushels, with a fair trade in all.

BARS OF PRICE. Open, 97¢; high, 97.5¢; low, 97.5¢; close, 97.5¢. 100,000 bushels, 97.5¢; medium, 97.5¢/97.75¢; heavy, 97.5¢; 100,000 bushels, 97.5¢/97.75¢; all 100,000 bushels, 97.5¢/97.75¢. Oats, open, 1.45¢/1.455¢; medium, 1.455¢/1.455¢; heavy, 1.455¢/1.455¢. Rye, open, 47¢/47.5¢; medium, 47.5¢/47.75¢; heavy, 47.5¢/47.75¢.

Cinema Actress Jailed After Fracas at Home of Richard Dix

AFFAIR SECRET FOR TWO DAYS

Charlot Bird Says Servants of Actor Abusive

Declares She Tried to Get Film Tests of Self

Former Fiance States Rumors All Unjustified

Details of a disturbance in the Beverly Hills home of Richard Dix, screen actor, which resulted in Charlot Bird, also a screen player, spending a night in the Beverly Hills jail, came to light yesterday despite attempts on the part of officers and others to keep it secret. The affair took place last Saturday night.

Miss Bird declared yesterday the difficulty arose over a missing reel of film test strips belonging to the actress. Officers learned of the unfortunate occurrence to a blotted name.

For three days Hollywood had been rife with rumors to the effect that Miss Bird had been arrested after a frantic search. Dix has been but with the aid of police in the suburban district all records of the arrest were kept from the public, and it was not until Miss Bird admitted her part in the misadventure that the facts were revealed.

HEART GIVEN

According to Miss Bird, she had learned that Dix had taken a number of strips of film known in the industry as "testis," to his home to be shown Saturday night, and from which he expected to select one or more to be used in the editing of his forthcoming picture.

When she became aware of her possession of the test strips herself which she desired she wanted to present to another studio that same night to the Dix, she said:

"I tried to have my test ready for another studio Monday morning." Miss Bird stated, "and when I missed it at the studio I heard that Mr. Dix had it. I wanted to give it to him, and when I got home when I arrived were the negro butler and his wife. When I told them what I wanted they became abusive and an argument started. They called me a prostitute and that is how it is."

According to Miss Bird, she was held in the Beverly Hills jail from 11 o'clock Saturday night until 6:30 o'clock Sunday morning and then released on her own recognizance.

Although the actress and Dix were engaged to be married, Miss Bird insisted that the engagement was broken off. She said she had been continually denied reports that the disturbance was brought about because of jealousy.

While the Beverly Hills police department has been investigating at the time of her arrest, the actress denied the accusation "abused."

"I had not been drinking and the accusation is a gross injustice," Miss Bird asserted. "I don't drink anyway, in the movies or outside the studio, never taking more than a cocktail," she added as an afterthought.

What proportions the disturbance at the actress' home reached could not be learned from any of the parties concerned. While police said that Miss Bird damaged several pieces of lace-a-bras in the house during her altercation with the butler and maid again denied they see all wrong.

Mr. Dix successfully evaded interviewers until late yesterday afternoon, when he was found at his Beverly Hills home.

WHAT DIX SAYS

Concerning the fracas Saturday night he said:

"The entire affair is very regrettable and I don't think Miss Bird was really to blame. My servants took their duty a little too seriously. I would say the maid and butler had been here and had come there on which she thought was a legitimate errand. I was not present at the time so, therefore, do not know the details of this so-called disturbance. I am sure that the two young ladies involved in the affair have greatly magnified the facts."

Miss Bird is under contract to Paramount-Famous-Lasky and has signed a new five-year contract with the studio.

Her manager, George L. Walsh, an attorney, will speak to the press concerning the matter.

Miss Bird's manager, George L. Walsh, an attorney, will speak to the press concerning the matter.

USURY TALK TO BE GIVEN

The Building-Law Secretaries Association will have a luncheon meeting at the Windsor Tea Room, Broadway Building at noon Friday. Lawton C. Bellman, an attorney, will talk on usury.

Disturbance Excites Screenland

Charlot Bird and Richard Dix

WATER BUREAU SNUBS PARROT

(Continued from First Page)
of the Owens-River Valley situation of its meeting next Friday.

PEACEFUL SOLUTION

A peaceful solution for the Owens Valley water situation will be discussed, according to present plans, at a mass meeting of Owens Valley folk July 3 at June Lake. E. J. Seymour, president of the association, is sure to believe that there is plenty of water for agriculture, streams and the Los Angeles Aqueduct.

"The net result of that work," Mr. Seymour said, "was that all members supported the principle of equality of water rights and adoption of a general water plan."

Mr. Seymour said that the plan will be put into effect as soon as possible and that the plan can be financed for a small amount of money. The water now goes to waste in desert streams.

Plans for making the region a resort center also will be discussed. An entertainment feature of the day will be a fifty-mile foot race from Bishop to June Lake for a purse of \$1,000, and Owens Gold Cup.

"There are only a few malcontents, a very small minority of landowners who are responsible for the long-drawn-out water contentions. The water has been condemned by residents of the valley," he said.

LIQUOR INQUIRY TO BE RESUMED

(Continued from First Page)
been successfully landed under the asserted "official protection."

WALSH TO TELL OF WAREHOUSE BOOMBOY

J. E. Walsh, arrested in Denver several days ago following a search of several months by Los Angeles authorities, was returned here yesterday and is expected to appear before the Federal grand jury today to explain his asserted part in the sensational government warehouse robbery here in December, 1936, when more than 700 cases of liquor were stolen. Walsh was arrested on an indictment charging possession of some of the liquor stolen but Federal authorities have intimated that Walsh may be able to shed some light on the mystery surrounding the robbery.

Mr. Walsh is under contract to Paramount-Famous-Lasky and has signed a new five-year contract with the studio.

Her manager, George L. Walsh, an attorney, will speak to the press concerning the matter.

TAFTS SELL BUILDING ON BOULEVARD

(Continued from First Page)
Office Structure at Vine and Hollywood Boulevard Sold for \$1,500,000 Cash

Declared to be one of the largest realty transfers involving an all-out consideration outside the downtown business district the Class-A, height-tinted Taft Building at the southwest corner of Hollywood Boulevard and Vine street was sold yesterday by the Taft Building and Investment Company to Mitchell-Tully Company, investment bankers, for \$1,500,000.

Announcement of the closing of the transaction was made by Lawrence Leonard, sales manager of W. T. Hollingsworth & Co. Both parties in the transaction were represented by George J. Adams of the Hollingsworth organization.

The Taft Building, the largest commercial structure outside the downtown business area, has a frontage on the boulevard of 150 feet and a total floor space of 150,000 square feet.

The Taft interests, former owners of the property, are one of the oldest realty operators in the city, having operated in the Hollywood area almost exclusively for thirty-seven years. Mitchell-Tully Company, the new owners, are correspondents for Kidder-Peabody Company, Boston and New York.

MONNETTE TO ATTEND LIBRARY CONVENTION

BANKER WILL REPORT ON OPENING OF CENTRAL BUILDING HERE

Orval E. Monnette, banker and president of the City Library Commission, has been selected to represent Los Angeles at the annual meeting of the American Library Association at Toronto, Can., beginning next Monday and continuing for five days.

Mr. Monnette will leave for Toronto over the Santa Fe tomorrow night and will join the special train delegation to the convention at Chicago. He will make a detailed report on the convention on the dedication last year of the new central library.

ACADEMY TO GIVE DIPLOMAS

Graduation exercises will be conducted at St. Mary's Academy at 8 p.m. today. Diplomas will be presented to thirty-two girls who compose the 1937 graduating class during the exercises.

INQUIRY SPLITS ON LEGION CLUB

Police Commission Deadlocks at Revoking License

Operatives Testify About Purchasing Drunks

But Hearing Reveals That No Arrests Resulted

Sensational disclosures that police operatives bought and drank illicit liquor without making arrests as part of an official investigation, complicated yesterday's hearing of the inquiry split in the ranks of the Police Commission, yesterday marked a hearing to determine whether the license of the Legion Club, 110 East Twelfth Street, should be revoked.

The hearing ended without a final decision. Commissioners Birnbaum and Foss voted to revoke the permit and Commissioners Inday and Thorpe urged that it not be revoked. Final action will be taken some time in the future when Commissioner Webster returns from New York and casts the deciding ballot.

The radical difference in the opinions held by the commissioners became most apparent when the roll was called for a vote.

Commissioner Birnbaum said he

JUDGES CLASH IN JULIAN CASE

(Continued from First Page)

to assist Dist.-Atty. Keyes in preparing the case for trial, and the defense in the event Bennett is arrested. Ben Cohn, chief of the District Attorney's investigators, is prepared to leave at once to take Bennett in custody.

Another hearing yesterday placed Lewellen in bankruptcy. Judge McCormick granted a petition of involuntary bankruptcy filed against the former president of the Julian Corporation by three creditors, who claim Lewellen is unable to return to the aggregate sum of \$12,485. Scott and Carnahan, receivers for the Julian Petroleum Corporation and its affiliated interests and who occupy a similar stormy position at the Long Beach Legion Club, 110 East Twelfth Street, also are involved.

The hearing ended without a final decision. Commissioners Birnbaum and Foss voted to revoke the permit and Commissioners Inday and Thorpe urged that it not be revoked.

Another matter which occupied the attention of City Prosecutor Lickley in connection with his drive against organized crime was the case of Harry M. Haldeman, president and general manager of the Pacific Pipe and Supply Company, who withdrew a \$77,615 check from the bank account of the Legion Club.

Haldeman, it was said, had

THIRD GANGSTER SUSPECT TAKEN

Negro Accused by Pals Held in Oakland Jail

Arrest of Fourth Expected to be Made Soon

At Least Eight Attacks on White Girls Charged

A third negro named in a confederate of the heavy traffic flow between Seventh and Eighth Streets in the downtown district of the city was arrested yesterday, according to an announcement last night by Chief of Detectives Clegg.

One more suspect, the police declare, is now at large and his capture is expected.

The man taken into custody in Oakland by Detectives Green and McDuff, assisted by Deputy Sheriff Guadalupe, was Joe Martin, whose asserted participation in crimes against women graphically told in a conference with the police, was made by Howard Hart, the first member of the negro gang arrested.

PERLING RUNS HIGH

With two colored men named by Hart under arrest in Sacramento and Oakland, and with two other suspects also in custody in Sacramento, Chief of Detectives Clegg asserted that a serious question might arise over their transportation to this city, as public feeling is reported at a high pitch over the violent activities of the negroes.

It was originally planned that a bond issue of \$1,000,000 would be used to transport the negroes to this city, but it was decided to make the trip by automobile.

Green and McDuff were reported searching for the last suspect near Sacramento last night and Chief of Detectives Clegg believed they might be successful in catching the fourth man.

Green and McDuff were reported searching for the last suspect near Sacramento last night and Chief of Detectives Clegg believed they might be successful in catching the fourth man.

Howard Hart, the first member of the negro gang arrested.

CHARGES SERIOUS

All those named in Hart's confession will face charges of robbery and attacks on various women whom they are asserted to have instigated after robbing their male escorts. In at least two instances the attacks were perpetrated on young girls.

High counts of robbery and attack were made by the negroes, who are described as being well-organized and well-armed.

to Come from
Principal Bench Group

Police is the quality that she could win a beauty pageant.

There's one reservation nature has done her, though. Her looks will be safe in car washed and polished.

"Domestic science" should be at least one of the ten things she can do.

An optimist is one who believes that life is just as easy to live as to push a lawn mower.

Usually you can tell by her smile whether she's English, American or Mexican.

It's just as well that the South is hopelessly Democratic. It's a President going South for summer.

Americanism: Climbing the investigation; losing interest on the third day.

The hard part isn't being born trying to make ends meet while living as the rich do.

The air problem is much the same down below. The best thing to do up there is to stay still.

Detectives last night were conducting a search for Roberta Matel, 14 years of age, of 5115 Sixth avenue, who is believed to have been abducted Monday night while on her way home from a theater.

The girl's mother told police yesterday that her daughter had set out for the show with two other young girls. On their return, she was later informed by the two girls, they were accosted by two men and a ride was offered, the girls said, and they got out. But Roberta was detained forcibly in the car.

University police arrested Bruce Tedder and are holding him for questioning in connection with the girl's disappearance.

"How do Americans look at front?" Well, if it's an even dress you mean, it's done by hand.

Correct this sentence: "We all my own fault," said the other as they dragged him from beneath the wreck.

If a man can't marry the one he loves he should try to love the one he marries.

The worst thing about women for dead men's shoes is that you are apt to get cold feet.

What a girl wears these days may be placed in the general classification of bare necessities.

Every community has a woman who is made chairman because she is willing to do all the work.

Some people are so hard-headed they don't care what happens long as it doesn't happen to them.

RIPPING RHYME
Walt Mason

AGE AND POVERTY

I lately read some gloomy news on grim statistics concerning sufferings and rags faced the ones who waste. It seems that only one in twenty, when they have come to have to purchase clothing, especially and chewing gum. The other sixteen are dependent on relatives for aid, and sadly waiting for ending of life's aid, dare not speak of their poverty.

Or if they haven't sons or daughters to the poorhouse, it is to the almshouse.

And it's as bad now as ever to live on moldy bread and water, ever, evermore. The others who are thrifty, whose earnings are dening to see, once started in with glee. They viewed the cautious ones who each day a dime, the event was vast, prior to have a hot time.

The cautious ones were sane planning against the future, when he'd be in the tunnel, spanning the close rear. And when age came, he found him beyond the reach want, with him, in his nice cake around him, in his nice haunt. For every man who's in clover nineteen.

Nineteen are looking back sighing for chances given and one day eight is gone.

Three days remain to send plans for vacation-tours.

Three days remain to which to submit plans in the vacation-tour contest for which The Times is offering \$175 cash prize, augmented by prizes offered by various business houses in the city. Monday evening the judges committee will start work of judging the many plans, all of which are to be postmarked by Saturday, June 17.

Plans must be submitted by mail and postmarked not later than June 17.

It is announced that it has been found perfectly feasible to submit plans in the form of a postcard and that the plan may be submitted on a postcard.

Practicality of the plan itself, accuracy of presentation will be considered by the judges.

Plans should be handwritten on one side of the paper only and must be submitted by mail and postmarked not later than June 17.

Plans should be submitted to the Vacation Tour Contest Committee, The Times, Los Angeles, Calif.

Plans may enter more than one plan. All manuscripts will be returned to the contestants.

Contestants may enter more than one plan. All manuscripts will be returned to the contestants.

Contestants may enter more than one plan. All manuscripts will be returned to the contestants.

1st-Do This

If Keeping "That Schoolgirl Complexion" Is Your Aim
By NORMA SHEARER

DON'T think a naturally clear skin is denied you, or that costly beauty treatments are required to keep one. That has been disproved. Beauty experts of this country and Europe advocate a rule so simple, so economical, that millions have adopted it. As a result you see that schoolgirl complexion wherever you look today.

The modern rule for beauty is a simple one: a proved complexion soap and water to keep the skin and pores clean, a little powder and rouge thoroughly cleared from the skin every night before bed.

Wash the face gently with Palmolive. Massage its balsmy olive oil.

Co., Chicago, U. S. A.

Of Interest to Women.

SOCIETY

BY JUANA NEAL LEVY

One of the lovely affairs of recent date was the tea party which Miss Ruth Cannon, attractive daughter of Mr. and Mrs. Roscoe Lipcomb Cannon, entertained in honor of her two cousins, Miss Amy Pierpont Phillips, whose engagement to Herbert Arthur, son of Dr. Charles Arthur, was announced recently, and Mrs. McDonald Britain, formerly Miss Olive de Four of Miami, Ga., who has come to Los Angeles to attend the Palmolive Tea.

Two hundred guests were called during the reception hours from 4 to 6 o'clock, and the charming young hostess gave her daughter in marriage and the two sisters of the bride, Misses Ruth and Helen Hutchins, as maid of honor and bridesmaids, the former in yellow chiffon taffeta while the latter wore rose and gold taffeta carrying arm bouquets of roses and mauve peacock feathers, brooches and diamond rings respectively.

The bride was charming in a gown of brocaded satin crepe with draped lace and veil of the same, lovely lace and she carried an arm shower of orchids and lilies of the valley.

Lloyd Dewart served Mr. Newton with best man and following the ceremony, the bride and her mother, after which Mr. and Mrs. Newton left for their future home in Winnipeg.

The Chambers family came to Southern California in August to make their permanent home. The bride received her schooling in their former Canadian Home.

The ceremony took place at half past two in the afternoon and the couple transformed into a garland of vari-colored gladioli and blue delphinium blossoms.

Interesting Wedding

A wedding of particular interest in musical circles of the Pacific Coast as well as Chicago and New York was that of the 8th inst. when at the home of Mrs. Mary Howes 1226 Wilshire, who were married Miss Helen Outland of Los Angeles became the bride of Giacomo Spadoni of Chicago and Los Angeles. Dr. Frank Linder, pastor of the First Methodist Church of the southern city officiated.

Another lovely affair given in honor of Miss Phillips was the breakfast with which Miss Gladys Crall entertained Saturday at the Los Angeles Club. The breakfast was served to the guests enjoyed bridge on the spacious terrace of the clubhouse. Those included were Mrs. Joe Crall, Mrs. MacDonald Britain, Mrs. Charles A. Honey, Mrs. Harry B. Lampert, Mrs.

Charles Chamberlain.

Miss Cannon graduated from University of California at Los Angeles this month receiving the degree of Bachelor of Arts. She is an active member of the Kappa Kappa Gamma sorority and has participated in many delightful affairs. This summer Miss Cannon is contemplating an extensive trip through the East and also will pass several weeks at Catalina.

Fine Cast Appears in Bowl Performance

De Koven Melodies Retain Their Lustre

BY EDWIN SCHALLER

Shaw's Forest of enchanting

memory lived again in an ideal environment last evening.

Reginald De Koven's "Robin Hood," now a classic of comic opera, was presented at the Hollywood Bowl, and proved an event in the chronicles of the celebrated natural amphitheater.

The celebrated work was given by a cast of exordians, the combination a huge chorus, and with excellent use being made of the outdoor setting that has already attracted the attention of throngs as the scene of summer.

It is estimated that 17,000 persons were present at the production, which is the 3rd of event of the season at the Bowl, though less than a month ago advance of the regular concert series. The performance was sponsored by the Art Theater of Hollywood, Inc., and was the first of three, the other two being scheduled respectively, for Thursday and Saturday evening of this week.

"Robin Hood," in its comic-opera version, is well-nigh a stranger to the stage here. It is all of a half dozen years since the last performance was given, and though the work to no longer be spiritual as it once was, there is still much that is charming about the music, and still considerable that is gay about its scenes. The most striking element of the musical score is the constant mirthful laughs at the dialogue last evening, and evidenced the pleasure that they found in the singing of such numbers as "The Merry Morris Dance," Vernon Stiles, Leslie Brown, and others, as well as the broad comedy of George Kunkel as the Sheriff of Nottingham.

For this production has evidently been chosen with discrimination. One seldom finds so excellent a company in "Robin Hood" nowadays. The majority of those taking part appeared well-schooled in their parts, and though the snap was at times lacking in the performance, fault was hardly to be found with this because of the many problems involved in presenting on a large a stage as that used for Bowl productions. Despite a certain slowness, there was manifested a very satisfying routine and finish in the performance as a whole, and with the very slightest exception lighting effects, and staging were impeccable.

Precious particularly was this true of the Shaw's Forest scene with camp life in the bowerwood, and the members of Robin Hood's band clambering down the hillside, and the live oak provided for the occasion stretching forth their gnarled branches over the entire landscape. It was a fine production, and has been achieved in any Bowl production, and if anything disclosed new possibility for this famed natural theater.

The principal singers made a fine impression from the start of the work, and the account that they gave of themselves throughout was surprisingly consistent.

The principal singer to be reproduced was that of Vernon Stiles and Syrine Bruce. Every syllable rang out clear in the instance of both these singers. The rendering of the Arthur's song in the third act by Vernon Stiles was also a notable high light, as he sang a splendid bass voice, well suited to this song. Mr. Stiles is a very superior tenor; one seldom hears a better in comic opera. His rendition of the "Merry Morris" number was very pleasing.

Margorie Dodge as Maid Marian was a revelation. The beauty of her voice, her fine clear bell-like tones period splendidly. She gave the part a touch of character in her interpretation.

Leota Loppy sang "O, Promise Me" very pleasantly. Her voice is large but in quality excellent. There were very good performances by Golden in the situations launched while Dot Farley contributed to the comedy as Dame Durden.

George Kunkel imbued with a highly originality of comedy of the comedy scenes with a great dash of the Sheriff, particularly in the scenes of heavy drinking of ale. Sidney Bruce's performance was also very amusing. Miss Powell was effective in her role.

The Tinker's woman and the men's waiter in the second act were both warmly applauded, and there were several encores to the Tinker number, which is still a clear novelty.

Mr. Billie Burke as Dame Durden, Sidney Bruce and others were most warmly applauded, and there were several encores to the Tinker number, which is still a clear novelty.

Mr. Millard expects to announce his director, cameraman and stars within a short time. Just now he has been signed to write an original story for film production by E. G. Millard, it is announced.

Following completion of the script,

which will be based on the development of aerostats and will touch upon the trans-Atlantic flights of Lindbergh and Chamberlin and Levine, shooting on the picture will begin.

NEWS OF SOUTHERN COUNTIES

MRS. BLYMIRE FREED BY JURY

Accused Wife Exonerated in Husband Slaying

Unanimous Verdict Reached Within Minute

Woman Tried on Charge of Killing Mate

SAN DIEGO, June 14.—(UPI)—"Not guilty" was the verdict of the jury this afternoon in the case of Hilda Blymire, tried on a charge of slaying her husband, Clarence Michael Blymire, chief petty officer of the Navy, and that verdict was found, according to one of the jurors, in just one minute of time.

Given the case at 12:54 o'clock, the jury had been seated in the jury room and in just a few minutes from that to just one minute.

"We had the verdict before we went to lunch, voting it unanimous on the first ballot in just one minute," declared a juror, following return of the verdict in court.

"We sat luncheon independently to get back with the verdicts as soon as possible."

The return of the verdict in court was at 2:16 o'clock. The jury had been seated for selection of a foreman by another foreman and the Blymires, just seated, had time to report its verdict, D. M. Hartman handing in the written verdict as foreman of Y jury.

Immediately upon the reading of the verdict in the court room, there was loud handclapping in the courtroom and Judge March severely ordered the demonstration stopped and not repeated.

The widow, wife and her younger sister, Mrs. Belle Pounds, who has sought to comfort her during the long wait since the shooting last January 23, fell into a sobbing embrace in a side-by-side chair in the courtroom by the sister and jail matron, Mrs. Blymire sank to the floor in the corridor, but was quickly lifted and carried to the home of the County grand jury on two charges of perjury in connection with his testimony two years ago.

Young nephew, Robert McCann, indicated last week by the County grand jury on two charges of perjury in connection with his testimony two years ago.

"I do not know yet what I shall do with the acquired widow in response to inquiry," said Mr. Pounds. "I am going with my sister and Mrs. Pounds to their house here."

"Oh, it is good to be free of that dreadful charge of killing my husband, but you have not been here a long time in jail. I don't know what I am going to do."

Pounds, a resident of Seattle, who gave up his employment there to come here with his mother to be with her in her attendance upon Mrs. Blymire,

said he joined with his wife in inviting the widow to come and make her home with them in Seattle where he would find his old job awaiting him.

He and his wife expected Mrs. Blymire to come and stay with them while Blymire was on duty at the time they received news that Blymire was dead and Mrs. Blymire accompanied him and came to the jail to get what he belonged.

"The State had deserved that Blymire became angry when he discovered his wife had gone to Tia Juana while he was absent on sea duty, and that he had been compelled to possess of a revolver, it was accidentally discharged with fatal results to Blymire. The shooting occurred January 23."

The defense claimed that Blymire himself fired the shot after a quarrel with his wife.

FUND APPROPRIATED FOR TRABUCO ROAD

SANTA ANA, June 14.—An appropriation of \$250 for completion of the new road up Trabuco Canyon was granted by the County Supervisors today at the request of the United States Forest Service represented by Ranger Bert Stephenson of Corona. The Forest Service expects to match the appropriation with an equal sum which will be sufficient for completion of the road to the Narrows he stated. The new road replaces the former road that was washed out by the flood. It is to be a six-mile-long cut-off road that a much better road has been constructed. It was thought could be built, so badly had the canyon been washed. With the amount of money appropriated, the cost will approximate \$500, the amount of the advance estimate.

OIL DERRICK FALLS ON WOMAN AND BABY

SANTA FE SPRINGS (Cal.), June 14. (UPI)—An aged woman and a small child were injured here today when a steel oil derrick owned by the Mutual Oil Company fell onto a house. Mrs. Gladysville Williams, 68, was cut and bruised and Carmen Villegas, her grand-daughter, aged 14 months, was scratched and bruised. Neither were injured seriously.

FAIR BOARD ELECTED

Southern California Association Takes Action Toward Next Annual Exposition at Riverside

RIVERSIDE, June 14.—Election of an executive committee to direct business of the Southern California Fair Association until the Forty-sixth District fair organization is completed, and a report of a special finance committee on the association featured the meeting of directors at the fair offices last night.

Recommendations in the special finance committee's report, which was endorsed by the directors, follow:

(1.) Announcement that the county Board of Supervisors has given the Southern California Fair Association \$15,000, which, with \$10,000 from the state, will provide an immediate fund of \$25,000.

(2.) Negotiations have been started with the City Council for a lease of the fair grounds, which have not been completed.

(3.) That the fair budget not exceed \$60,000.

(4.) That the fair directors elect an executive committee of eight to direct activities of the association until the district organization is completed, and that eight men be recommended to Gov. Young as the district directors.

HIGGINS TO AID AGAIN IN CAMP CASE

Special Prosecutor, Whom Higher Court Scored, Will Assist in Second Trial

HANFORD, June 14.—Attorney Preston Higgins of Oakland who, as special prosecution attorney, acting with District Attorney McKey, got a large figure in the trial of the famous "windmill murder case," will act in the same capacity when Jessie Laura Brown, H. T. Tipton and Fred Mills go on trial again charged with the killing of Lee Camp, wealthy young rancher.

Higgins is the attorney of Mrs. Lee Camp, sister of Lee Camp and who over that Mrs. Brown not only killed her brother, but tried to kill her. Higgins' legal services from the State and the present District Attorney, J. W. Ferguson, accepted them.

In quashing the original grand jury indictment and from the Supreme Court, Higgins' arguments to the jury which convicted the trio were unjustifiable on any grounds and秉持着 prejudicial institutions or port.

The Appeals Court had rendered a somewhat similar opinion and gave as another reason for reversing the verdict that there were checks and applause in the courtroom for the defense.

Mrs. Brown, after securing new trials, on continued statements she is ill, has returned to Oakland where she will resume medical treatment for her nerves.

Young nephew, Robert McCann, indicted last week by the County grand jury on two charges of perjury in connection with his testimony two years ago, was tried and found guilty of the crime.

FLAG GLORIFIED BY ENTIRE CITY**Mass Meeting and Patriotic Programs Conducted****Schools and Clubs Observe Emblem's Anniversary****Old Glory Flung to Breeze at Fort Moore Site**

The 150th anniversary of the American flag was celebrated in Los Angeles yesterday with a mass meeting in Patriotic Hall under the auspices of the Army and Navy Union, patriotic programs in the public schools and clubs and observances by various other organizations. In addition to these, community exercises were conducted in a number of places throughout the city.

Speakers provided by the Better America movement addressed the groups in the schools and the main meeting was under direction of Mrs. Celia Snyder, assistant national deputy of the union auxiliary, accompanied by Captains E. H. Moore and others.

Cora E. Monnette was the principal speaker at a ceremony conducted on the site of the original Fort Moore on the hill above Broadway between 1st and 2nd streets. The program, which began at 10 a.m., was under the auspices of the Los Angeles division of the National Society of the United States Daughters of 1812, of which Mrs. Loring Minkler and Maxine Minkler presided. Similar tea courses were held on the site of the original Telegraph Company in Boyle Heights.

Robert Ingalls, who presented his mother's degree in electrical engineering, Thomas Goffin, Boyle Heights, will leave soon for the University of Michigan, and others.

Cora E. Monnette was the principal speaker at a ceremony conducted on the site of the original Fort Moore on the hill above Broadway between 1st and 2nd streets. The program was flag-raising ceremony, following Monnette's address, giving the history.

HISTORY REVIEWED

The flag was donated to the society by the city of Los Angeles and was hung to the bunting from a staff member of the 150th Mass. It was presented to the Los Angeles High School band and the pledge of allegiance was repeated by several hundred persons who witnessed the ceremony. Fort Moore was dedicated July 4, 1847, following the naming of the fort by Captain George F. Smith, U.S.A., to Gen. Fremont. It was named in honor of Capt. Benjamin Moore, who lost his life in the Battle of San Pasqual.

On the 150th day in America, Mr. Butler at 1405 Maple Avenue, its faded blue field contains thirteen stars and the words "United States of America." This is the last of a series of flags which have been made over a period of more than 150 years old.

Representative Crail paid high tribute to Col. Lindbergh, hero of the New York-to-Paris flight, in an address at the Flag Day ceremony at the Hotel Hollywood Lodge last night. The program was conducted in the Lodge auditorium at Pico Boulevard and Orchard street.

LINDBERGH PRAISED

"Capt. Lindbergh," the speaker said, "represents the day of a new heroism, a heroism of peace instead of war. Down through the ages have heroes come. Captain Lindbergh took part in any war, yet he is the greatest hero of the time. The flag he carried to Europe has become a symbol of the achievements of a people on earth and good among men, the Stars and Stripes of America."

Lieut.-Gov. Mike addressed the American Legion luncheon at the Hotel Roosevelt. Henry W. Weidner, president of the United States National Bank, delivered a talk before the employees of the May Company yesterday.

The nation's flag, the Liberty Bell was described by speakers last night at the Mike Temple where interesting exercises were conducted. It was the 100th anniversary of the formation of the Woodmen of the World organization that Flag Day was inaugurated in 1897, and since then lodges throughout the country have conducted celebrations such as.

BIGGEST AD BID OF ALL TIME FOR LOS ANGELES

WAN YUEN, June 14.—The Chinese members of the Los Angeles Advertising Club, and advertising members of the Chinese Chamber of Commerce, gathered yesterday before the Chinese Van Nuys High School on his trip "Publicity" to the Chinese Museum in San Francisco. The 150th anniversary of the Chinese people, by advertising, continues for weeks, and through the efforts of the Chinese Chamber of Commerce, the Chinese world began. Hundreds of thousands have migrated to America, and the present Chinese city, hundreds of millions of pavements and other material things have been created. The Chinese climate is good, and the Chinese are the most advanced and the most advanced in the world.

Los Angeles, he said, has paid the largest amount of advertising, and a small loss would be the greatest time.

FATHER AND MINION SON SUED FOR \$1,000,000

VERALIA, June 14.—A suit was filed yesterday in the Superior Court for damages against the father and son of the Chinese laundryman in this city, L. Carrasco, formerly a member of the Southern Chinese Laundrymen in Veracruz, Mexico. Carrasco, in Veracruz, had been sued by the Board of City Directors, after the accused, his son, John McDonald, had been found guilty of robbing him of his laundry business in Veracruz, and he is seeking a permit to do so.

Notes of the G.A.R. 21st and drum corps had died away when Leslie R. Henry, speaker of the day, delivered the dedicatory address. John McDonald, known here as "the drummer boy of '61."

Introduction of Mr. Taylor was by Commander J. G. Lawrence of the G.A.R. Musical selections were given by Misses Mary and Alice Hartwell, Otagawa, pianist, and Mrs. Mabel Jerome and Mrs. Jean Hubbard, who sang a duet.

The Flag Day exercises were conducted tonight at the hall with music by the 21st and drum corps of the G.A.R. and the American Legion quartet and soloists as features of the program.

LECTURE ON TELEPATHY

The control of mind on matter, mental telepathy and various phases of psychic work will be discussed by Roman Minicic, Octava Masenki in his lecture this evening at the Polish Hall, Fortieth street and Avenue Roosevelt, before the members of the Polish League of Los Angeles.

Athletic, dancing and much walking on pavements are advanced as the best exercise for health, but must be continued, because there is no cure once a month for the body.

To qualify for automatic candidates must be advanced in their studies, having their feet well developed, and able to gain control of the body.

Twenty-five classes reading in Greek, Latin and English, and various subjects upon which the student can expect to make progress, are offered to the students.

Lindbergh Reception Greatest in History; Byrd Ready to Hop Off

Flying Low Over the U.S.S. Memphis as the cruiser entered the Potomac River bringing Col. Lindbergh back to America, the giant dirigible Los Angeles was caught in the above unusual photograph by a cameraman in one of the escort planes. (P. & A. photo.)

Scores of Planes and Hundreds of Craft Dotted New York Harbor when "Lindy" arrived there Monday for the greatest reception ever accorded anyone in the history of the nation. The above photo, transmitted by wire, shows launch (in foreground) taking the famous American youth from naval plane in which he reached harbor. Plane can be seen in background. (P. & A., via A. T. & T.)

CRASH OF HIS PLANE shortly after he took off from Le Bourget Field yesterday, halted attempt of Capt. Pelleter D'Oisy, French ace, to set new distance record. (Herbert Photos, Inc.)

EVERYTHING IS IN READINESS for Lindbergh's arrival in Paris to undertake tonight or tomorrow the exceptional tour of the world's most advanced automobilists will undoubtedly include a submarine boat, also in miniature, and a radio operator, shown above with the first model of this—no batteries or power required. Then come the aeroplanes, and hear the Fokker and the other aeroplanes.

Camp Fire Scene
Mr. RALPH L. POWERS
various phases of improvement
of aerial navigation and development of radio it is
believed that the use of many angles will improve
radio control. More
We can guide a dirigible
in the air and control its
position at any time. We
can generate on earth
radio power and transmit it
to an airplane or radio
operator. We can direct it to another
airplane and receive again. More
details now include
the use of steering and guiding
without a pilot.
ARMED BY RADIO
The development and selection
of instruments for the con-
trol of aircraft has been devised and
various types made. Guns
can be aimed and directed via radio con-
trol. We can follow on their way via
radio the positions of airplanes
and other aeroplanes and even
ships and tanks. The use of radio
will greatly increase the efficiency of the work
done in the laboratory and
lead to the early solution
of many important problems.
The operation of radio
is to be undertaken this evening
in demonstrating re-
sults. It is certain that the
radio-controlled automobile
will undoubtedly include
a submarine boat, also in miniature,
and a radio operator, shown above with the first model of this—no batteries or
power required. Then
come the aeroplanes, and hear the Fokker
and the other aeroplanes.

The RA
without
in VALUE

AT is the verdict of
experts who compare
Fokker No-Battery Radio
with the exceptional tools
used in the search for the missing
report from Roosevelt Field where the
"America" is housed. Byrd with G. O.
and his crew are staying at the
same hotel as the rest of this—no batteries or
power required. Then
come the aeroplanes, and hear the Fokker
and the other aeroplanes.

Miraculously Escaping Violent Death, Mrs. Guadalupe Villegos, 65, and her 14-months-old grand-daughter, Carmen, were yesterday dragged from the wreckage of a house demolished by the crash of a 75-foot derrick owned by the Santa Fe Springs Mutual Oil Syndicate, in Boyle Heights. Photo shows demolished home (left) and derrick. (Times photo.)

OUR HISTORY IN PICTURES 743 First Trans-Continental Railway—Part III.

In 1862, CONGRESS, TO ENCOURAGE WESTERN MIGRATION, PASSED A "HOMESTEAD ACT" WHICH MADE A GIFT OF 160 ACRES IN THE FAR WEST TO ANY HEAD OF A FAMILY WHO WOULD AGREE TO CULTIVATE IT FOR FIVE YEARS.

RAILROADS WERE NEEDED TO OPEN UP THIS GREAT WESTERN EMPIRE, AND THE SAME YEAR (1862) CONGRESS AUTHORIZED THE CONSTRUCTION OF A TRANS-CONTINENTAL RAILWAY. TWO COMPANIES, THE CENTRAL PACIFIC AND THE UNION PACIFIC UNDERTOOK TO BUILD THE LINE.

THE CENTRAL PACIFIC WAS TO LAY ITS TRACKS EASTWARD FROM SACRAMENTO, CALIFORNIA, OVER THE SIERRAS, AND, AT A POINT NEAR SALT LAKE, IN UTAH, CONNECT WITH THE UNION PACIFIC, WHICH WAS TO RUN WESTWARD FROM THE FRONTIER.

Now, instead of traveling with Chicago by rail, with the eastern terminus of the railroads, the government gave vast tracts of land along the line and guaranteed bonds to be paid to the railroads.
